Providing Independent Advocacy

Bradford and Craven Autism AIM

We offer info and signposting, post-diagnostic support, help to access GP services and mental health peer support groups for autistic adults living in Bradford, Airedale and Wharfedale and Craven

We are funded by grants from:

**Bradford District and Craven
Health and Care Partnership**

**West Yorkshire
Health and Care Partnership**

About us

Bradford and Craven Autism AIM is a free service co-led by and run for autistic adults aged 18+. We can help if you:

- Live in or are registered with a GP in Bradford, Craven and Airedale and Wharfedale
- Receive little or no funded support for social care
- Are needing information about seeking an autism diagnosis

We are part of The Advonet Group, an independent advocacy charity working across West Yorkshire.

Our Services

Autism Health Access Project

Support to help autistic adults access GP services and communicate their health needs, as well as one-to-one peer support.

This service is for people **with a formal diagnosis**.

Post-Diagnostic Support

Post-diagnostic support for up to four sessions a year, provided by one of our Peer Development Workers.

This service is for people **with a formal diagnosis**.

Mental Health Peer Support Groups

The Mental Health Equity Project runs monthly mental health-focused peer support groups online.

The group is for autistic adults **with and without a formal diagnosis**.

Free self-advocacy/planning resources and guides

We have free self-advocacy resources, planning tools and guides for autistic adults.

They can help you to speak up for yourself and your rights, plan for important things like meetings, communicate your needs and know more about topics like employment, health and mental health. You can download them all for free on our website.
